Welcome

To Our 31st Annual Spring Concert!

Nashville Notes has over thirty years of proven commitment to homeschool fine arts education in Middle Tennessee and neighboring communities, offering ensembles and classes for ages 0-19.

Serving hundreds of families and thousands of students over the last thirty years has been a true testament to what God can do with willing hearts. It is an honor to partner with parents, encouraging personal growth and development in students as they dive deeper into their understanding of music. And now science has proven the positive neurological effects - producing innovative thinkers, disciplined and socially developed students, and improved overall human happiness! What an incredible gift God invented in music!

CONTINUING PRIVATE LESSONS?

Is eight weeks too long to go without individualized lessons from your favorite NN instructor?! If you would like to keep up your momentum, advance your skills, and come back stronger than ever, private lessons are a wise investment! Whether in person or over Zoom, there's nothing like one-on-one. Reach out to the appropriate instructor and go for the gold!
